

CURRICULUM VITAE

I have a background in psychology and several years of experience in people-focused roles, which helped me develop strong communication, organisation, and problem-solving skills. Using these skills, I am now transitioning into a career in development where I can turn creative ideas into working solutions. To assist me in this new career direction, I recently graduated from a coding Traineeship including completing 2 real-world projects successfully to specification using a wide range of programming languages. I am dependable, thoughtful, and highly motivated to continue learning. I work well independently and as part of a team, approach problems methodically, and take pride in producing clear, well-structured work. I am eager to start my career in software and web development while continuing to grow my technical skills.

CODING TRAINEESHIP

IT Career Switch Ltd
Coding Traineeship – Full Stack Developer
1-year program

During the traineeship, I had to demonstrate a very competent level of the following programming languages and technical skills:

- HTML5, CSS3, JavaScript
- PHP, SQL, MySQL, React, jQuery, C#
- Python, Node.js, Bootstrap, Java, JSON
- Command line Git, GitHub
- Remote API access

ADDITIONAL TECHNOLOGIES:

- Express, PostgreSQL, AJAX, Leaflet.js, cURL, Vite, JWT

DEVELOPMENT EXPERIENCE:

Below are the two briefs of development projects I completed with IT Career Switch which can be found in my bio: <https://www.daniellerossiter.co.uk/>

Portfolio Project #1: “Gazetteer”

Develop a map-based application in HTML, CSS, JavaScript (jQuery) and Bootstrap presenting geographical and demographic data from JSON returned by PHP modules that query third-party APIs such as GeoNames and OpenWeather.

Portfolio Project #2: “Company Directory”

Full project cycle: Formal proposal followed by the development of a company personnel database application using Bootstrap, JavaScript (jQuery), PHP and MySQL. Sign off obtained after demonstrating that all of the required functionality was present and working as intended through the preparation of a formal test script.

Personal Project #1: "RecipeNest"

Full-Stack PERN Application using React, Vite, Node.js, Express, PostgreSQL & JWT. Built a full-stack recipe application with user authentication and protected routes. Implemented CRUD operations for user-owned recipes. Used JWT authentication to restrict edit and delete actions to recipe owners. Created a responsive frontend for browsing and managing recipes.

CAREER HISTORY:

Apr 2025 – Present

Career Break (Study)

Oct 2023 – Apr 2025

POSITION HELD:

Chiltern Nursery & Training College Nursery Assistant

- Managed daily routines including meals, activities, and transitions while supervising multiple children safely
